

PROGRAM SPECIFICATION

Diploma in Electronics and Communication Engineering (2022 – 2023)

Awarding Institution	A' Sharqiyah University
College / Centre	Engineering
Program Title	Bachelor in Electronics and Communication Engineering
Program Title	Electronics and Communication Engineering
Credit hours	77
Mode of Study	Full time and Part time
Language of Study	English
Benchmarks	The program was initially developed by a team of faculty from Texas Tech University and benchmarked with similar programs at University of New Mexico, North Carolina State University, Purdue University, and Virginia Polytechnic Institute and State University.
Entry requirements	<ol style="list-style-type: none"> A student should have successfully passed the courses of all subjects of the general education diploma or its equivalence. A student should achieve the standards set for the subjects of the General Foundation Program. A student should have passed the following subjects to qualify for enrollment in the College of Engineering: Pure Mathematics, Physics and Chemistry. A student must be medically fit.
Minimum period of registration	Full time: 2.5 years Part time: 3.5 years
Maximum period of registration	Full time: 4.5 years Part time: 5.5 years
Date specification produced	March 2013
Date specification last reviewed	June 2018

PROGRAM SPECIFICATION

1. THE COLLEGE OF ENGINEERING

The College of Engineering at A'Sharqiyah University (ASU) opened in 2011 and has grown quickly to a current enrollment of over 300 students. The College will continue to grow at this rapid pace in order to accommodate over 1000 students in new classrooms and laboratories located in the new College of Engineering building that was completed in September 2017. With a first-rate building and state-of-the-art laboratories, the ASU Engineering College will continue to draw community members and prospective students to the growing campus. The College of Engineering at present offers undergraduate academic programs at Diploma/Degree levels in Civil Engineering, Environmental Engineering, Electronics and Communications Engineering and Construction Project Management.

The mission of the College is to educate creative professional engineers, technologists and technicians and to equip them to serve society in a globalized knowledge economy. Working in partnership with its stakeholders; the College is committed to the creation and transfer of new knowledge and technologies through the efforts of faculty, staff and students. The College vision is to achieve national and international stature as a College of Engineering through excellence in engineering education, research and innovation, outreach and external community engagement whilst contributing to the competitiveness, social and economic development and prosperity of the Sultanate of Oman.

2. PROGRAM OUTLINE

The Electronics and Communication Engineering program is planned to provide the students with a strong background of mathematics, physics which are fundamentals for students to peruse their engineering study more effectively. Thus, in addition to the courses in mathematics and physics provided in the foundation program, the students are offered four mathematics courses and two physics courses. Furthermore, there are different courses designed to provide the student with the required communication skills, improve the logical thinking of the students and to develop the student ability to model different real life phenomenon. With strong basic knowledge in place, the program introduces the students with well-designed courses in electronics and communication. These courses equip the students with the up to date knowledge that allow them to cross steadily to the future and be highly competitive in the job market. Electronics and Communication Technicians from this program will be able to undertake projects that include the deployment and maintenance of telecommunication networks, giving technical support and participating in establishing and building of new oil and gas plants, power plants, airports, hospitals and health care centers, all of which are of central importance to Oman.

3. PROGRAM AIMS

Electronics and Communication Engineering is a discipline that has grown over the last decade. The program aims at the production of qualified technicians who are competent in areas of electronics and communications and who are able to work in a globally competitive market by ever seeking lifelong learning in the technical, management, and other facets of concern.

PROGRAM SPECIFICATION

4. LEARNING OUTCOMES

Upon completion of the program, students will be able to:

[A – D are mandatory, however sub-categories in D should be completed as applicable]

<p>A. KNOWLEDGE AND UNDERSTANDING</p>	<ul style="list-style-type: none"> • An ability to apply knowledge of mathematics, science, and engineering. • A knowledge of contemporary issues • The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context. • An understanding of professional and ethical responsibility • A recognition of the need for and an ability to engage in life-long learning.
<p>B. SUBJECT-SPECIFIC INTELLECTUAL SKILLS</p>	<ul style="list-style-type: none"> • An ability to conduct experiments, as well as to analyze and interpret data. • An ability to implement a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability. • An ability to identify, to formulate, and to solve engineering problems.
<p>C. PROFESSIONAL / PRACTICAL SKILLS</p>	<ul style="list-style-type: none"> • An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.
<p>D. GENERAL COMPETENCE</p>	<p>Communication</p> <ul style="list-style-type: none"> • An ability to communicate effectively. <p>Teamwork and interpersonal skills</p> <ul style="list-style-type: none"> • An ability to function on multidisciplinary teams. <p>Leadership and entrepreneurship</p> <ul style="list-style-type: none"> • Ability to lead group of employees. • Ability to establish companies in the field of interest.

PROGRAM SPECIFICATION

5. PROGRAM STRUCTURE

Students must achieve the required credit hours for the program by completing University and University Electives listed in sections 5.1 to 5.5 below:

University Requirements

12 Credits

Course Code	Course Title	Pre-Requisites	Credits
ISLM101	Islamic Civilization		3
ENGL101	English Communication Skills I		3
ENGL102	English Communication Skills II	ENGL101	3
MNGT313	Entrepreneurship		3
Total			12

PROGRAM SPECIFICATION

College Requirements

41 Credits

Course Code	Course Title	Pre-Requisites	Credits
MATH101	Calculus I		3
MATH102	Calculus II	MATH101	3
ENGR111	Computer Applications	ENGR111	3
PHYS101	Physics I	MATH101 (C)	3
PHYS102	Physics II	PHYS101	3
CHEM101	Chemistry	MATH 101 (C)	3
ENGR201	Engineering Drawing	MATH101	3
ENGR202	Technical Writing and Presentation	ENGL102	3
MATH203	Differential Equations	MATH102	3
MATH204	Probability and Statistics	MATH102	3
ENGR230	Engineering Analysis	MATH203 (C) & MATH204 (C)	3
ENGR301	Managing Engineering Organization		3
Total			36

Major Requirements

83 credits

Course Code	Course Title	Pre-Requisites	Credits
ECEN211	Digital Systems	MATH101	3
ECEN221	Circuits Theory I	MATH102	3
ECEN281	Digital Systems Lab	ECEN211	1
ECEN381	Circuits Lab I	ECEN221	1
ECEN341	Signals and Systems	MATH102	3
ECEN331	Electronics I	ECEN221	3
ECEN382	Electronics Lab I	ECEN331	1
ECEN342	Analog Communication Systems	ECEN341	3
ECEN223	Communication Lab I	ECEN342	1
ECEN316	Integrating Group Project	Pass in 50 credits	3
ECEN311	Optical Communications	ECEN342	3
ECE ECEN333	Optical Communications Lab	ECEN311 (c)	1
Total			29

PROGRAM SPECIFICATION

6. PROGRAM REFERENCE POINTS

This Program has been designed with reference to ABET.

7. TEACHING AND LEARNING METHODS (indicative)

Lectures, tutorials, and lab works.

8. ASSESSMENT METHODS (Indicative)

Assignments, quizzes, Exams, presentation and Lab work.

9. CAREER and STUDY OPPORTUNITIES

The program facilitates entries to job and work opportunities in a number of market and industrial settings such as:

1. Telecommunication networks of public and private service.
2. Supervision posts in public/governmental and/or private enterprises of interest.
3. Industrial manufacturing settings of interest.
4. Electronic assembly plants.
5. Enable graduates to pursue post-graduate studies in various areas of electrical engineering.

10. STUDENT SUPPORT

Students attend an orientation week at the start of the program and are supported by a Course Coordinator. The Head of Department is also available to advise on program-related queries.

Students have access to the University's library with a range of reading materials, online resources and study support.

The University's Student Affairs Office supports and advises students on issues such as finance, regulations, legal matters, accommodation, transportation, disabilities and career guidance.

The Student Council is also an important source of support and guidance

The University has a Student Fund which considers applications on a case by case basis.
