

PROGRAM SPECIFICATION

Bachelor of **Internet and Information Technology**

2020-2021

Awarding Institution	A 'Sharqiyah University	
College / Centre	College of Business Administration	
Program Title	Internet and Information Technology	
Final Award	Bachelor of Internet and Information Technology	
Credit hours	123	
Mode of Study	Full time	
Language of Study	English	
Benchmarks	<ol style="list-style-type: none"> 1. University of Nizwa, (Oman) 2. Abu Dhabi University, (UAE) 3. Purdue University, (USA) 4. University of Portsmouth, (UK) 5. Western Sydney University, ((Australia) 6. NUS, (Singapore) 	
Entry requirements	<p>A student</p> <ul style="list-style-type: none"> - • General Education Diploma or high school diploma. - • Certificate issued from outside the Sultanate (need to be equivalent to the Ministry of Education in the Sultanate). - • High school percentage of 65% or above and obtaining 65 % or above in Pure Mathematics and English. - • The student must pass the general foundation program (English, mathematics, computer, and learning skills) as a general requirement for all students before starting the program. - • Students who have studied in other educational institutions recognized by the University may be eligible to transfer if the they earned a grade point average of 2.0 or higher over a four-point grade scale. The head of the academic department or dean in the College in which the student has enrolled shall evaluate all courses taught at the former institution in which the student earned a grade of C or higher. - must be medically fit. - 	
Minimum period of registration	FULL-TIME: 4	PART-TIME: 6
Maximum period of registration	FULL-TIME: 8	PART-TIME: 10

PROGRAM SPECIFICATION

Date specification produced	May 4, 2021
Date specification last reviewed	May 4, 2021

1. THE COLLEGE OF BUSINESS ADMINISTRATION

The College of Business Administration (CoBA) at A' Sharqiyah University (ASU) is a member of the International Association to Advance Collegiate Schools of Business (AACSB) which provides the College with access to AACSB resources to support the advancement of management education and our efforts for continuous improvement. Areas of study at CoBA for undergraduates include Management Information Systems, Accounting, and Business Management.

The students also offered the opportunities to engage in research and development projects.

CoBA provides the intellectual foundation for students' life-long learning and success. The College enrolls students extensively from the regional Omani population that supports both the economic and social progress of the society. CoBA emphasizes on Oman and international diversity, by utilizing traditional and technology-based pedagogies to create a positive teaching and learning environment.

In addition to a sustaining emphasis on quality teaching and learning through classroom research, student professional organizations, and advisory activity, CoBA contributes to business, professional, and civic affairs through public service and intellectual pursuits. CoBA respects cultural diversity and promotes humanitarian interactions between people; however, highlighting the history and culture of the Sultanate of Oman is one of COBA's prime concerns.

The Program Specification presents program outline, program aims, learning outcomes, program structure, program reference points, teaching and learning methods (indicative), assessment methods, career and study opportunities, student support, program structure diagram, and mapping of assessment of learning outcomes to the taught courses. It is intended as source of information for students, institutions, teaching teams, internal and external reviewers and external examiners, and relevant regulatory and professional parties.

2. PROGRAM OUTLINE

The program Bachelor of Internet and Information Technology proposed by the College of Business Administration at A' Sharqiyah University is d. Graduates of this program are expected to significantly contribute to the development of digital infrastructure of both private and public sectors. Graduates will possess skills in programming, systems analysis sustainability, Networks, security, applications development and Database management

3. PROGRAM AIM/S

1. Develop the next generation of Omani students who will be able to lead the implementation and the management of digital infrastructure of Oman public and private organizations.
2. Prepare graduates who can develop appropriate skills to investigate, analyses and apply the appropriate measures to develop business applications to solve businesses problems.
3. Apply appropriate skills to handle network configuration, administration and

PROGRAM SPECIFICATION

upgrades.

4. Equip graduates with appropriate skills to develop web and mobile applications to help companies who want to migrate to web-based business platform.

4. LEARNING OUTCOMES (Definitive)

Upon successful completion of the program, students will be able to:

<p>A. KNOWLEDGE AND UNDERSTANDING</p>	<ol style="list-style-type: none"> 1. Comprehensive understanding of Internet and Information technologies and digital infrastructure in general and apply appropriate skills to investigate, analyze and apply the appropriate measures to design and implement effective business need digital solutions 2. Graduates will have general familiarity with the latest developments at the forefront in the field of Internet and Information technologies and digital technology and detailed knowledge of at least one significant area such as Database driven web applications developments, intelligent ecommerce systems development and mobile applications development. 3. Understanding of the provisional nature of knowledge and of the way in which new knowledge is developed and applied in the analysis and resolution of problems. 4. Graduates will have knowledge of relevant Omani laws, regulations and conventions as it applies to digital technology. 5. understand in general the design and implementation similarities and differences between Omani requirements and those in effect in appropriate jurisdictions abroad.
<p>B. SUBJECT-SPECIFIC INTELLECTUAL SKILLS</p>	<ol style="list-style-type: none"> 1. Demonstrate awareness of Internet as a service platform that could help businesses significantly 2. Demonstrate appropriate skills to investigate, design and implement digital infrastructure to meet business needs. 3. Develop appropriate computer programming skills.

PROGRAM SPECIFICATION

	<ol style="list-style-type: none"> 4. Demonstrate appropriate skills of big-data management, mobile and web applications development. 5. Demonstrate appropriate business analytical and intelligence skills to help businesses to make an informed decision.
6. PROFESSIONAL / PRACTICAL SKILLS	<ol style="list-style-type: none"> 1. Ability to apply established concepts, theories and modes of enquiry in a given discipline or professional field such as business digital infrastructure requirements gathering, design, implementation and delivery. 2. Ability to analyze problems independently, drawing on conceptual skills, while considering the provisional nature of knowledge. 3. Ability to devise solutions to complex problems related to systems analysis and design, ecommerce and mobile, digital networks security management, business intelligence and big data management and to communicate and explain findings effectively.
4. GENERAL COMPETENCE	<ol style="list-style-type: none"> 1. Graduates will have general competency to serve the purpose of relating the entrepreneurship with knowledge, there by contributing to the overall development of the nation. 2. Acquire the ability to systematically gather, analyze and interpret relevant business requirements, including gathering, analyzing, designing, implementing, securing, testing, delivery, support, and training. 3. Communicate effectively and to develop persuasive arguments, using different modes of communication in the language of instruction. 4. Graduates can apply software development measures and to use the most appropriate communications technology in gathering, interpreting and communicating information.

5. PROGRAM STRUCTURE

Students must achieve the required credit hours for the program by completing University Required and Elective courses listed in sections 5.1 to 5.5 below:

PROGRAM SPECIFICATION

5.1 University Requirements: Total Credit hours **12**

Course Code	Course Title	Pre-Requisites (P) Co-Requisites (C)	Credit hours
ISLM101	Islamic Civilization		3
ENGL101	English Communication Skills I		3
ENGL102	English Communication Skills II		3
MNGT313	Entrepreneurship		3
TOTAL			12

5.2 College Requirements: Total Credit hours **06**

Course Code	Course Title	Pre-Requisites (P) Co-Requisites (C)	Credit hours
MNGT201	Principle of Management		3
ACCT101	Introduction to of financial Accounting		3

5.3 Program Requirements: Total Credit hours **93**

Course Code	Course Title	Pre-Requisites (P) Co-Requisites (C)	Credit hours
INTE101	Information Technology Fundamentals		3
MATH101	Calculus		3
INTE105	Introduction to Computer Programming		3
INTE110	Web Application Development	INTE105	3
INTE120	Office Automation		3
MATH215	Linear Algebra	MATH101	3
INTE130	Object Oriented Programming	INTE105	3
INTE201	Fundamentals of Operating Systems	INTE101	3
INTE 205	Fundamentals of Databases	INTE101	3
INTE209	Business Requirements Modelling	INTE101	3
INTE207	Computer Networks I	INTE101	3
INTE210	Mobile Application Development I	INTE207	3
INTE220	Advanced Databases	INTE205	3
INTE230	Incident Réponses Management	INTE201	3
INTE240	Multimedia Design and Animation I	INTE101	3
INTE250	Project Management	INTE209	3
INTE301	Ethics for Information Technology	INTE101	3
INTE305	Rapid Applications Development	INTE130	3
INTE309	Computer Networks II	INTE207	3
MIFS460	Human Computer Interaction		3

PROGRAM SPECIFICATION

INTE320	Object Oriented Design	INTE305	3
INTE340	Mobile Application Development-II	INTE210	3
INTE 470	Internship		3
INTE401	Digital Marketing	MNGT201	3
INTE405	Data Analytics	INTE310	3
INTE409	Cloud Computing	INTE330	3
INTE408	Multimedia Design and Animation II	INTE240	3
INTE410	E-Commerce Application Développement	INTE 401	3
INTE420	Big Data	INTE 405	3
INTE475	Senior Project		3
INTE330	Network Defense	INTE309	3
			93

5.4 Program Electives: **Total Credit hours** **The total number of elective hours are 12 to be chosen from the following**

Course Code	Course Title	Pre-Requisites (P) Co-Requisites (C)	Credit hours
INTE430	IT and Society		03
INTE406	IT Change management		03
INTE403	Database Driven Systems		03
INTE 407	Block Chain Technologies		03
INTE 440	Advanced Topics in IT		03
INTE450	Internet of Things		03
INTE460	Artificial Intelligence		03
INTE310	Technical Writing		03
MNGT207	Introduction to Business Communication		03
			12

6. PROGRAM REFERENCE POINTS

This Program has been designed with reference to:

- Follow the Oman Standard Classification Education Framework (OSCEF), which was developed with the framework of the international standards.
- The number of credit hours and the teaching load of the faculty member and the student's academic load correspond to the Oman Qualifications Framework (OQF) and Oman Academic Accreditation Authority (OAAA)..
- The Program outputs correspond to the requirement of Omani Qualifications Framework (OQF).

PROGRAM SPECIFICATION

- The requirements for admission to the program are in line with the requirements of the Oman Qualifications Framework (OQF).

7. TEACHING AND LEARNING METHODS (indicative)

The MIS Diploma program utilizes a mixture of learning and teaching methods that focus on and maximize the student's learning experience through:

- A series of lectures and seminars that promote student participation
- A number of tutorials and practical sessions that enforce student learning
- A number of student based activities such as presentations, problem solving, computer laboratory sessions, research projects that enhance student practical skill

8. ASSESSMENT METHODS (Indicative)

Assessment methods:

A mixture of both summative and formative assessment, spread throughout the academic year.

The program evaluation mechanism is based on four strategies:

1. The content of the course submitted at the end of each semester and the instructor's assessment portfolio.
2. Evaluation of instructor and decision by students, which is at the end of each semester and each academic year.
3. Report of the Committee of plans and curriculum which is the end of each semester.
4. Report of an external committee submitted at the end of each academic year.

Evaluation Mechanism:

Students' performance in the program will be assessed using the following tools:

First: Evaluating performance in the field of knowledge: using the following:

- Quizzes, Midterm and final tests.
- Individual practical tests, group practical projects, reports and applied research projects
- Homework & presentations
- Solving a real industry problems

Second: Evaluate the performance of students in the field of performance: using the following:

- Checklists
- Observation
- Practical reports and projects

PROGRAM SPECIFICATION

- Role representation
- Portfolio Assessment

Third: Evaluation of students' performance in the clinical field: using the following:

- Questionnaires, interviews and oral tests
- Self-assessment
- Peer assessment

Evaluating students' achievement in the clinical diagnosis and treatment skills

9. CAREER and STUDY OPPORTUNITIES

IT consultant

IT specialist

Cloud architect

Information security specialist

Mobile application developer.

Web developer

Software engineer

Information technology manager

Big Data analyst

ecommerce application Developer

Instructional designer

10. STUDENT SUPPORT

Students attend an orientation program at the start of their studies. They are supported by a Course Coordinator and the Head of Department is also available to advise on program-related queries.

Academic advising is an essential element of the educational process. Students are assigned academic advisors who help them in selecting their course of study and in planning their schedules. Academic advisors also approve students' schedules each semester. The academic advisor assists students in obtaining a well-balanced education and in interpreting university policies and procedures, it is ultimately the students' individual responsible for selecting their courses, meeting course prerequisites, and adhering to university policies and procedures. Students may also consult faculty, department or program chairs, program coordinators, and deans.

Students have access to the University's library with a range of reading materials, online resources and study support.

The University's Student Affairs Office supports students in adjusting to university life and advises on issues such as finance, regulations, legal matters, accommodation, transportation, disabilities and career guidance. Opportunities are also provided for students to participate in various extra-curricular activities.

The Student Council is also an important source of support and guidance.

The University has a Student Fund which considers applications on a case by case basis.

Comprehensive understanding of Internet and Information technologies and digital infrastructure in general and apply appropriate skills to investigate, analyze and apply the appropriate measures to design and implement effective business need digital solutions.	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS
Graduates will have general familiarity with the latest developments at the forefront in the field of Internet and Information technologies and digital technology and detailed knowledge of at least one significant area such as Database driven web applications developments, intelligent ecommerce systems development and mobile applications development.	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS
Understanding of the provisional nature of knowledge and of the way in which new knowledge is developed and applied in the analysis and resolution of problems.	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS
Graduates will have knowledge of relevant Omani laws, regulations and conventions as it applies to digital technology	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS
Understand in general the design and implementation similarities and differences between Omani requirements and those in effect in appropriate jurisdictions abroad.	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS

Upon completion of the program, students will be able to:	REQUIRED COURSES:	INTE420	INTE475	INTE330	INTE430	INTE406	INTE403	INTE 407	INTE 440	INTE450	INTE460	INTE310	MNGT207
SUBJECT-SPECIFIC INTELLECTUAL SKILLS													
Demonstrate awareness of Internet as a service platform that could help businesses significantly.		FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS
Demonstrate appropriate skills to investigate, design and implement digital infrastructure to meet business needs.		FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS
Develop appropriate computer programming skills.		FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS
Demonstrate appropriate skills of big-data management, mobile and web applications development		FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS
Demonstrate awareness of Internet as a service platform that could help businesses significantly.		FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS
PROFESSIONAL / PRACTICAL SKILLS													
Ability to apply established concepts, theories and modes of enquiry in a given discipline or professional field such as business digital infrastructure requirements gathering, design, implementation and delivery.		FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS
Ability to analyze problems independently, drawing on conceptual skills, while considering the provisional nature of knowledge.		FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS

Upon completion of the program, students will be able to:	REQUIRED COURSES:	INTE420	INTE475	INTE330	INTE430	INTE406	INTE403	INTE 407	INTE 440	INTE450	INTE460	INTE310	MNGT207
Ability to devise solutions to complex problems related to systems analysis and design, ecommerce and mobile, digital networks security management, business intelligence and big data management and to communicate and explain findings effectively.		FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS
Ability to apply established concepts, theories and modes of enquiry in a given discipline or professional field such as business digital infrastructure requirements gathering, design, implementation and delivery.		FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS
GENERAL COMPETENCE (INCLUDING FOR EMPLOYABILITY)													
Graduates will have general competency to serve the purpose of relating the entrepreneurship with knowledge, there by contributing to the overall development of the nation.		FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS
Acquire the ability to systematically gather, analyze and interpret relevant business requirements, including gathering, analyzing, designing, implementing, securing, testing, delivery, support, and training		FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS
Communicate effectively and to develop persuasive arguments, using different modes of communication in the language of instruction		FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS
Graduates can apply software development measures and to use the most appropriate communications technology in gathering, interpreting and communicating information.		FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS	FS

Upon completion of the program, students will be able to:	REQUIRED COURSES:	INTE420	INTE475	INTE330	INTE430	INTE406	INTE403	INTE 407	INTE 440	INTE450	INTE460	INTE310	MNGT207

13. GRADUATE ATTRIBUTE YEAR 1

KEY: ✓ ✗

Upon completion of the program, students will be able to:	COURSES:	INTE101	ISLM101	MATH101	ENGL101	INTE105	INTE110	INTE120	MATH215	ENGL 102	INTE130		
Knowledge Of A Discipline		✓	✓	✓	✓	✓	✓	✓	✓	✓	✓		
Commitment To National Development And Omani Ethical Values		✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
