1. THE COLLEGE OF BUSINESS ADMINISTRATION

The College of Business Administration (CoBA) at A'Sharqiyah University (ASU) is a member of the International Association to Advance Collegiate Schools of Business (AACSB) which provides the College with access to AACSB resources to support the advancement of management education and our efforts for continuous improvement.

Areas of study at CoBA for undergraduates include Management Information Systems, Accounting, and Business Management. The students also offered the opportunities to engage in research and development projects.

CoBA provides the intellectual foundation for students' life-long learning and success. The College enrolls students extensively from the regional Omani population that supports both the economic and social progress of the society. CoBA emphasizes on Oman and international diversity, by utilizing traditional and technology-based pedagogies to create a positive teaching and learning environment.

In addition to a sustaining emphasis on quality teaching and learning through classroom research, student professional organizations, and advisory activity, CoBA contributes to business, professional, and civic affairs through public service and intellectual pursuits.

CoBA respects cultural diversity and promotes humanitarian interactions between people; however, highlighting the history and culture of the Sultanate of Oman is one of COBA's prime concerns.

The Program Specification presents program outline, program aims, learning outcomes, program structure, program reference points, teaching and learning methods (indicative), assessment methods, career and study opportunities, student support, program structure diagram, and mapping of assessment of learning outcomes to the taught courses. It is intended as source of information for students, institutions, teaching teams, internal and external reviewers and external examiners, and relevant regulatory and professional parties.

2. PROGRAM OUTLINE

The Diploma program provides technological input and a broadening of the horizons of participants by exploring the use of Information Systems in supporting various business activities to empowering and support change within the corporate environment.

There are opportunities to study the very latest developments from a standpoint of theory or with a view to basic systems implementation or customization of existing ones to facilitate achieving the corporate strategic objectives. Moreover, the Diploma in business management program provides the necessary knowledge for graduates who wish to progress to Bachelor in MIS or Business Management degree programs.

3. PROGRAM AIMs

The MIS Diploma program aims to equip the students with the following knowledge and skills:

- Promote analytical thinking to investigate problems and make suitable decisions.
 - Develop students' skills in the area of information systems.
 - Enhance students' intellectual and professional development skills.

4. LEARNING OUTCOMES (DEFINITIVE) MAPPED WITH GRADUATE ATTRIBUTES

Upon completion of the program, students will be able to:

A. KNOWLEDGE AND UNDERSTANDING	 Describe the MIS field of study as a whole. Describe the current practices trends in information management and related issues. Associate the theoretical and systematic bases in the development of information systems.
B. SUBJECT-SPECIFIC INTELLECTUAL SKILLS	 Apply known concepts to investigate and analyses a business problem. Indicate how MIS problem should be addressed. Use project management skills to approach business problems.
C. PROFESSIONAL / PRACTICAL SKILLS	 Develop basic solutions to MIS problems and to communicate findings effectively. Design and develop basic business applications. Integrate skills gained to enhance the performance of an enterprise.
D. TRANSFERABLE SKILLS	 Communicate in both verbal and written context effectively Work effectively and efficiently as a team member. Manage independent personal development.

5. PROGRAM STRUCTURE

Students must achieve the required credit hours for the program by completing University Required and Elective courses listed in sections 5.1 to 5.5 below:

5.1 University Requirements (Core) hours 12

Total Credit

Course Code	Course Title	Pre- Requisites	Credits
ISLM101	Islamic Civilization		3
ENGL101	English Communication Skills I		3
ENGL102	English Communication Skills II	ENGL101	3

MNGT313	Entrepreneurship	3
	Total:	12

5.2 College Requirements (Core) 30

Total Credit hours

Course	Course Title	Pre-	Credits
Code		Requisites	
MIFS307	Business Application Development	MIFS101	3
ECON101	Principles of Microeconomics		3
ACCT101	Introduction to Financial Accounting		3
ACCT201	Introduction to Managerial Accounting	ACCT101	3
MATH105	Business Mathematics		3
MNGT102	Business Ethics		3
MRKT201	Principle of Marketing		3
FINA201	Principle of Finance	ACCT201	3
MNGT201	Principles Of Management		3
MNGT207	Intro to Business Communication	MNGT201	3
	Total:		30

5.3 Major Requirements (Core and Electives) 24

Total Credit hours

Course Code	Course Title	Pre- Requisites	Credits
MIFS101	Introduction to Management Information Systems		3
MIFS202	Web Application and Development	MIFS101	3
MIFS304	Systems Analysis and Design	MIFS101	3
MIFS201	Fundamentals of Databases	MIFS101	3
MIFS315	Business Data Communications and Networking	MIFS101	3
MIFS316	Cloud Computing for Business	MIFS101	3
MIFS203	Fundamental of Computer Programing	MIFS101	3
MIFS420	Information Systems And Risk Management		3
			24

6. PROGRAM REFERENCE POINTS

This Program has been designed with reference to

- Oman Academic Accreditation Authority (OAAA); Requirements for Oman's System of Quality Assurance (ROSQA)
- The Association to Advance Collegiate Schools of Business (AASCB) Standards
- Sultan Qaboos University (SQU)

• Oklahoma State University (OSU)

7. TEACHING AND LEARNING METHODS (INDICATIVE)

The MIS Diploma program utilizes a mixture of learning and teaching methods that focus on and maximize the student's learning experience through:

- A series of lectures and seminars that promote student participation
- A number of tutorials and practical sessions that enforce student learning
- A number of student based activities such as presentations, problem solving, computer laboratory sessions, research projects that enhance student practical skills

8. ASSESSMENT METHODS (INDICATIVE)

To reflect the program objectives and learning outcomes, each taught course is usually assessed through a combination of various assessment techniques. These typically include:

- Group and/or individual work
- Written reports/essays and case studies
- Quizzes, examinations and presentations
- Research projects

The main component of assessment is the examination, nonetheless, as this program relies heavily on knowledge and practical skills, there are significant emphasis on computer laboratory based assignments. Assessment criteria for individual courses can be found in related course descriptors included in the course handbook, as well as the time constrained tasks that will be made available during classes.

9. CAREER and STUDY OPPORTUNITIES

Graduates of this program would qualify for a range of entry-level positions in the field. Job roles may include the following:

Systems Administrator Database Administrator Administrative service manager E-commerce coordinator Office manager Management trainee Database coordinator

In addition to developing a successful career within IT domain, graduates can follow pathways in higher education.

10. STUDENT SUPPORT

Students attend an orientation and induction program at the start of their studies. They are supported by a course coordinator, faculty staff, and the head of the department. They will have access to the University's library with a range of reading materials, online resources, and study support.

The University's Student Affairs Office supports students in adjusting to the university life and advises on issues such as finance, regulations, legal matters, accommodation, transportation, disabilities, and career guidance. Opportunities are also provided for students to participate in various extra-curricular activities.

The Student Council is an integral part of the students' services, where support and guidance are offered to them.

The University has a Student Fund which considers applications on a case by case basis. Students attend an orientation and induction program at the start of their studies.
